SUB SPEAKERS

CREWMEMBERS FROM THE PRE-COMMISSIONING UNIT JOHN WARNER VISITED NORTH CAROLINA STATE UNIVERSITY NAVAL RESERVE OFFICERS TRAINING CORPS UNIT TO DISCUSS THE SUBMARINE FORCE ON FEB. 5, 2014. THE COMMANDING OFFICER, COMMANDER DAN CALDWELL, AND TWO OF HIS CREW BRIEFED THE MIDSHIPMEN WITH AN OVERVIEW OF THE SUBMARINE FORCE, WHICH COVERED TYPES OF PLATFORMS, FLEET CONCENTRATION AREAS, AND MISSIONS.

"THE FAVORITE PART FOR ME WAS HOW QUICKLY I WAS ABLE TO GET RESPONSIBILITY ONBOARD. BY THE THIRD MONTH I WAS STANDING WATCH OVER THE PLANT WHILE THE CREW TRIED TO BREAK STUFF AND SEE IF WE COULD FIX IT," SAID CALDWELL.

LIEUTENANT JASON RICHESON, THE ASSISTANT WEAPONS OFFICER ASSIGNED TO THE JOHN WARNER, DISCUSSED HIS UNIQUE ENTRY INTO THE NAVAL SUBMARINE FORCE AS A PRIOR ENLISTED MARINE AND WHAT THE NAVY NUCLEAR COMMUNITY TAUGHT HIM. HE PROVIDED A CONCISE EXPLANATION OF THE TYPICAL DUTIES OF A DIVISION OFFICER IN THE SUBMARINE FORCE AND OFFERED SOME HELPFUL WORDS OF WISDOM TO THE MIDSHIPMEN WHO WOULD BE FILLING HIS SHOES IN A FEW SHORT YEARS.

"I THOROUGHLY ENJOYED EVERY ASPECT OF THE BRIEF," SAID CALDWELL.

SENIOR CHIEF OSCAR VENESZEE, THE CHIEF OF THE BOAT, GAVE THE MIDSHIPMEN A CONDENSED VERSION OF HIS CAREER, HIGHLIGHTING DIFFERENT STAGES OF HIS LIFE IN ORDER TO ILLUSTRATE THE VARYING TYPES OF PEOPLES THAT THE MIDSHIPMEN WOULD EVENTUALLY BE LEADING. HE OFFERED VALUABLE LEADERSHIP ADVICE IN THE PROCESS.

COMMANDER CALDWELL DISCUSSED A WIDE RANGE OF TOPICS: FROM THE INTRICACIES OF THE PHOTONICS MASTS AND THEIR IMMENSE BENEFIT TO THE MISSION OF THE VIRGINIA CLASS, TO THE UNUSUAL CHALLENGES HE’S FACED AS THE COMMANDING OFFICER OF A PRE-COMMISSIONING UNIT.

AFTER LECTURING AT THE BATTALION’S LEADERSHIP LAB, CALDWELL AND THE ACCOMPANYING MEMBERS OF HIS CREW WENT TO DINNER AT A LOCAL RESTAURANT WITH MEMBERS OF THE BATTALION INTERESTED IN THE SUBMARINE FORCE.

"I THOROUGHLY ENJOYED EVERY ASPECT OF THE BRIEF, BUT I THOUGHT IT WAS PARTICULARLY INTERESTING TO HEAR ABOUT THE PRE-OPERATIONAL PHASE THAT A SUBMARINE AND ITS CREW GO THROUGH, FROM CONSTRUCTION TO DRY-DOCKING AND ALL THE WAY TO SEA TRIALS," ENTHUSIASTICALLY STATED MIDSHIPMAN SECOND-CLASS CRUMP, A NUCLEAR ENGINEERING MAJOR.

JOINT PT

Increasing the quality of inter service relationships is important to the battalion. This semester we accomplished this task by organizing Joint PT events for all the ROTC branches at North Carolina State. Joint Ops, Chief Midshipman Second-Class Cook, was responsible for planning two Joint PT events over the semester. Midshipmen and cadets had the chance to bond and get to know each other while challenging themselves in physical activities.

USAA LEADERSHIP AWARD

“Thankful for the USAA for recognizing me and I will continue to keep up the good work.”

—Zimmerman

During Naval Lab, Midshipman Crump (right) and Midshipman Zimmerman (left) were awarded the USAA Leadership Award.

“I am extremely grateful for this award. I plan to use the scholarship to take summer classes.”

COMPANY PT

AS PART OF THE PT SCHEDULE THIS SEMESTER THERE WERE TWO REQUIRED PT SESSIONS EVERY WEEK. BATTALION PT ON MONDAYS WHERE MIDSHIPMEN WORE THEIR RED BATTALION SHIRTS AND ON WEDNESDAYS, THE BATTALION SPLIT INTO COMPANIES AND PERFORMED COMPANY PT. FOR COMPANY PT THE COMPANY COMMANDERS WERE RESPONSIBLE FOR ORGANIZING THE DIFFERENT WORKOUTS AND THE COMPANY FIRST SERGEANTS WERE IN CHARGE OF CARRYING OUT THE PLAN. COMPANY PT USED ORIGINAL WORKOUTS TO IMPROVE UNIT COHESION AND ENTHUSIASM TOWARDS PHYSICAL TRAINING. SOME INTERESTING EXERCISES EXECUTED WERE SWIMMING, BASKETBALL, SUSPENSION TRAINING, AND HIGH INTENSITY INTERVAL TRAINING.

DRILL MEET

NC State was victorious over the Blue Schools, Duke and UNC, at the Annual Drill Competition on March 8, 2014. The hard work and determination of the Drill Team’s members from the start of the semester was well rewarded. Midshipman Third-Class Mazaleski acted as Drill Commander over his fellow shipmates and was Commander for Knockout Drill as well. North Carolina State Midshipman Taylor received second in the Knock-Out Drill Competition. The stands were full with a sea of red, and supporters celebrated the victory afterwards with the Team.

MSS

Throughout the course of the semester, the Navy options of the battalion made frequent and productive use of their unique Mariner Skills Simulator (MSS). While the Navy utilizes the MSS software at other NROTC units, the variant that opened last year in Hunt Library at NC State is the most advanced in the nation.

The purpose of the MSS at NC State is to provide the midshipmen with a realistic training experience in which they can exercise different leadership roles while applying their knowledge of navigation, weapon systems, and operations. Christened the USS James B. Hunt, the simulator allows midshipmen to man the different watch positions simultaneously in order to learn to drive a virtual ship similar to a real guided-missile destroyer.

The primary focus of the MSS training this semester was to introduce the third-class to enlisted watch positions such as the helm, lookout, and radar operator, and the second-class to officer watch positions like the officer of the deck (OOD) and connning officer. The watch teams were then combined and put through realistic scenarios.

In one such scenario, a full watch team of midshipmen was tasked with navigating the USS James B. Hunt from off the coast of California into port in San Diego Bay. This evolution presented a demanding challenge for the midshipmen, as they had to work together to safely navigate within the bounds of the narrow channel at the entrance to the bay while avoiding buoys, maritime traffic, and various hazards to navigation.

“While it was stressful, being officer of the deck was great” said Midshipmen Second-Class Lynch, the OOD during the evolution. “It felt as though everyone was saying a million different things to me at the same time. It felt like I was really navigating through San Diego.”

The watch team made the most of the training opportunity and performed quite well, arriving safely at their destination ahead of schedule and congratulating each other on a job well done.

END OF YEAR EXERCISE

ORIENTATION-
For the end of year exercise, each platoon was assigned either country red or blue. Alpha-1 (blue) competed against Bravo-1 (red), and Alpha-2 (red) competed with Bravo-2 (blue). The Marine option midshipmen were also split into two groups, one red one blue. The third and fourth-class midshipmen were responsible for developing a strategy. All four platoons had the semester, both during lab and on their own time, to prepare.

SITUATION-
An abandoned island in the Pacific, Bulldog Island, is claimed by both country red and country blue. The island resembles Hawaii, and gives the country owning it reserves in oil, uranium, and iron. It is also a choke point in the Pacific. Country red has forces occupying Bulldog Island currently and country blue is threatening action.

MISSION-
Each platoon is responsible for devising a strategy to use against the opposing platoon using the assets of a carrier strike group. The end goal is to protect assets on Bulldog Island and destroy enemy forces in order to occupy or continue occupying Bulldog Island.

EXECUTION-
On 09 Apr 2014 the teams present their strategies and take turns trying to out-think the other. During the process of lab, each side is given seven minutes at a time to call in moves against their opponent. After each turn Intel is infused to allow for further planning and action.

ADMINISTRATION AND LOGISTICS-
Competing platoons take alternate turns, and offense receives first turn. During a turn a platoon may move their forces, fire at the opposing platoon, or take a defensive position. If firing, a platoon must determine the range of the target, roll a die to determine if it hits, and assess the damage using a predetermined table.

COMMAND AND SIGNAL-
"The challenges faced with this year's End Year Exercise were like none other faced in prior years. The goal was to maintain the exercise while expanding the roles such that midshipmen from First-Class to Fourth-Class all played a vital part. Past years using the Fleet Command Platform saw bottlenecks at the computer console and resulted in many midshipmen standing around with no input. This year's change has maintained the overall operational model, but now is sophisticated enough to demand input and constant monitoring by all members involved," as specified by Midshipman First-Class Strong, who was responsible for helping to organize the End of Year Exercise.

--Midshipman Fourth-Class Glynn

"For the strength of the pack is the wolf, and the strength of the wolf is the pack."
MARCH:
MIDSHIPMAN THIRD-CLASS MAZALESKI

“IN RECOGNITION OF SUPERIOR DEDICATION TO THE BATTALION, HAVING SERVED DILIGENCE AS THE DRILL TEAM COMMANDER FOR THE NORTH CAROLINA STATE UNIVERSITY NROTC BATTALION, BEING AN ACTIVE MEMBER OF SEMPER FI, AND CONSTANTLY LEADING YOUR FELLOW MIDSHIPMEN DURING ALL BATTALION EVENTS, YOUR DEDICATION TO THE MEMBERS OF THIS UNIT HAS DEMONSTRATED THE UTMOST PROFESSIONALISM AND FIDELITY. MY PERSONAL THANKS ARE EXTENDED FOR A JOB WELL DONE!”

CHANGE OF COMMAND

THE SPRING SEMESTER BATTALION COMMANDER, MIDSHIPMAN FIRST-CLASS FUQUEA, PASSED ON COMMAND TO THE CURRENT BATTALION COMMANDER, MIDSHIPMAN SECOND-CLASS CRUMP, ON APRIL 23, 2014. THE CEREMONY WAS BASED ON MARINE CORPS TRADITION. THEREFORE, AS A USE OF SYMBOLISM, THE BATTALION GUIDON WAS GIVEN TO MIDSHIPMAN FUQUEA, WHO THEN HANDED IT TO MIDSHIPMAN CRUMP. THE CEREMONY IS PERFORMED TO ENSURE THAT THE BATTALION IS NEVER WITHOUT A COMMANDING OFFICER, NOT EVEN FOR A SECOND. THE BATTALION LOOKS FORWARD TO WHAT MIDSHIPMAN CRUMP HAS PLANNED FOR THE FALL SEMESTER.
